Anthony Moffett with Tru Green made a presentation about the Emerald Ash Borer which has been found in the area and is decimating Ash trees and mentioned he did not notice a plan to address in our long term parks plan. There was discussion of how to identify ash trees and how to resolve the issue once infested. He stated he has

been working with the City of Evansville and the Vanderburgh County Purdue Extension office to stop the spread of the infestation.

Mrs. Wilsbacher asked if once the tree was infested if it needs to come down.

Anthony Moffett stated if the tree is 75% or more infested the tree is gone. He explained how to identify the D-shaped hole, and peeling back the bark to expose the serpentine galleries.

Stacie Krieger asked if this was a preventative or a treatment.

Mr. Moffitt stated it is both. It is a trunk injection with a 95% success rate.

Mrs. Wilsbacher asked if these bugs are becoming resistant.

Mr. Moffitt stated there is no evidence showing that. They have seen a rare case where the bugs attacked a different species of tree but it was once instance and the tree was a relative of the Ash. He offered to take an inventory of Ash trees in the town limits and report back to the Parks Board with his recommendations. He also presented an “adopt a tree” program that has been very successful.

Mr. Keller asked what the cost of treating a tree is.

Mr. Moffitt stated depending on the size of the tree it could cost anywhere from \$50 – 300 per tree.

Mrs. Wilsbacher made a motion to allow Mr. Moffitt to take an inventory of Ash Trees in the town limits of Newburgh.

Mr. Keller seconded and the motion carried.

PARK AREA REPORTS

Lou Dennis – Ron Keller sent the Town Manager a picture of the sliver of land adjacent to the entrance to the park being used by neighbors to store their garbage cans. Christy Powell stated she will get with Gerald on how to handle and report back. He also stated he asked his daughter about painting the Fortress of Fun but she thought the Parks Board would rather use someone from Warrick County. There were some broken branches down. Water standing around some of the playground equipment. Broken BBQ Housing and a broken swing. One of the doors was unlocked which could pose a safety issue.

Mrs. Wilsbacher stated she put a call into Castle High School in October and no one has gotten back to her. So if Mr. Keller's daughter would be willing to have her students do the painting that would be great and for her to go ahead and paint it.

Lockmaster Cottages – Mr. Reine reported that the cottages look clean and the new lights help a lot.

Next Meeting will be March 3rd, 2016 at 6pm.
